Wide range of Bare Root Perennials

Wide range of top-quality perennials sourced by Kébol Plants around the world. We have more than 35 years of knowledge in buying and selling bare root perennials, also called land plants. From green perennials, such as *Hosta* and *Heuchera*, to flowering perennials, such as *Peonies* and *Astilbe*.

Why should you grow perennials? The demand for perennials is increasing. And shouldn't it be because perennial plants are wonderful additions to the landscape and gardens? Because they last for more than one season, they are perfect for designing a permanent garden display. Besides that, perennial plants provide pollen, nectar, seeds and nesting material for birds and butterflies.

Our refreshed assortment can fill your perennial needs for your customers. Using bare root perennials to grow finished plants will save you time!

How much faster can plants from bare root be?

In many cases, plants from bare root finish 25% to 50% faster than those started from plugs or liners. This allows growers to turn their production space faster. This potentially means more sales revenue! What's not to like about that?

Hosta BotaniQua – one of the biggest trend

EN - One of the biggest plant trends of the moment is 'hydroponics'. Therefore, we have created BotaniQua. Hosta BotaniQua is packaged in a box with a glass vase and a Hosta wrapped in peat. There are also instructions included where it describes how easily this product can grow into a leafy green plant. The packaging contains no water, which means the product has a long shelf life on the sales floor.

DU - Einer der größten Pflanzentrends ist derzeit die „Hydrokultur“. Deshalb haben wir BotaniQua entwickelt. Hosta BotaniQua ist eine Verpackung mit Glasvase und Hosta Staude. In der Verpackung wird beschrieben wie leicht dieses Produkt zu einer grünen Blattpflanze heranwachsen kann. Hosta BotaniQua enthält kein Wasser, wodurch das Produkt auf der Verkaufsfläche lange haltbar ist.

FR - L'une des plus grandes tendances végétales du moment est la « culture hydroponique ». C'est pourquoi nous avons créé BotaniQua. Hosta BotaniQua est conditionné dans une boîte avec un vase en verre et une Hosta emballée avec de la tourbe. Il y a aussi des instructions incluses où il décrit avec quelle facilité ce produit peut se transformer en une plante verte feuillue. L'emballage ne contient pas d'eau, ce qui signifie que le produit a une longue durée de conservation sur le point de vente.

Fun fact: The BotaniQua is completely sustainable. Plant the Hosta in the garden during fall and reuse the vase for something else in the house.
